

## Mini™ & Mini™-E Electric Tankless Water Heater

- > Compact point-of-use model for warm water hand washing at a sink
- Thermostatic models and mechanical models available

#### **Features**

- > Continuous supply of warm water on demand > Correctly sized aerator supplied with unit
- > High limit switch with manual reset
- > Easy installation 3/8" O.D. flex connections
- > Engineered in Germany to be the best
- > Exclusive design prevents dry firing
- > 10-year leakage/3-year parts warranty
- > Comes complete with wire pigtail
- Advanced Direct Coil Technology™

- No standby heat loss with tankless design
- > 99% efficiency

> Manufacturing facilities

> Commercial condominiums

- > Flow switch activated for virtually silent operation
- > Mounts on wall at point-of-use
- > No T&P relief valve needed (Check local code) > Cold water only line needed to be run to lavatory
  - > Compact and designed to be visible or hidden in cabinet
  - > Compatible with sensor actuated or metered faucets
  - > Tankless design prevents Legionella bacteria growth

- > Mounts with water connections up or down
- > Mounts above or below fixture

## **Applications**

#### Commercial > Industrial > Institutional

- Office buildings
- Gas stations
- > Stores
- Schools
- Malls
- > Hotels/Motels
- ➤ Warehouses > Restaurants

#### Residential

- > Bathroom sinks
- > Kitchen sinks
- > Laundry areas
- > Cabins/cottages

Mini<sup>™</sup>-E is a code-compliant thermostatic model with electronically controlled output temperature.

## **Specification**

The electric tankless water heater shall be equipped with a direct coil nichrome type heating element housed in fiberglass reinforced high temperature plastic containment. The housing of the unit shall be made of high impact polycarbonate plastic. The flow switch that operates the heating element shall be of the mechanical pressure differential type. The unit shall be equipped with a safety high-limit switch with manual reset. The water connections shall be designed for standard 3/8" O.D. flexible braided stainless steel hose type connectors. The unit shall be mounted with water connections facing either top or bottom only. The units shall ship with a AWG #12 wire harness with a length of 2 ft. The unit shall be certified to UL Std. 499 and shall conform to CAN/CSA Std. C22.2 No. 60335-1, E60335-2-35 (Mini™ models) or CAN/CSA Std. C22.2 No. 64 (Mini™-E models).

Mini™ 2-1 is internally restricted to 0.32 GPM / 1.2 l/min. Mini™-E 2-1 is internally restricted to 0.40 GPM / 1.5 l/min.

Mini™ 2-1 & Mini™-E 2-1 ship with a 0.35 GPM pressure compensating flow-reducer/aerator that must be installed.

Mini™ 2.5-1, 3-1 & Mini™-E 2.5-1, 3-1, 3-3, 3.5-1, 4-2, 4-3 ship with a 0.5 GPM pressure compensating flow-reducer/aerator that must be installed.

76.9 mS/m / 769 µS/cm

>77 °F (25 °C)

1300  $\Omega cm$ 

Mini™ 3.5-1, 4-2 ship with a 0.66 GPM and a 0.5 GPM pressure compensating flow-reducer/aerator. One must be installed based on desired output temperature. Mini™ 6-2 ships with a 1.0 GPM pressure compensating flow-reducer/aerator that must be installed.

Mini™-E 6-2, 6-3 ship with two 0.5 GPM pressure compensating flow-reducer/aerators that must be installed, plus an additional 1.0 GPM pressure compensating flow-reducer/aerator for use if plumbed to 1 sink.

Standard specification at

Minimum resistivity  $\rho \ge$ 

Maximum conductivity  $\sigma \leq$ 

These are our recommendations. Check local codes for compliance if necessary.

≤77°F (25°C)

100 mS/m / 1000 μS/cm

1000  $\Omega cm$ 

<sup>&</sup>lt;sup>1</sup> Nominal mains voltage is 110-120V and 220-240V.

<sup>&</sup>lt;sup>2</sup> Overcurrent protection sized at 100% of load. Tankless water heaters are considered a non-continuous load.

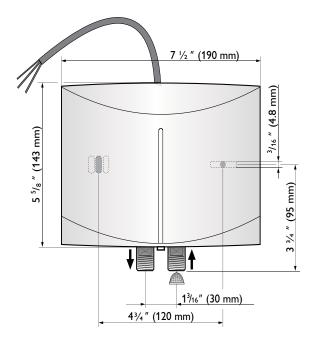

<sup>&</sup>lt;sup>3</sup> Copper must be used. Conductors should be sized to maintain a voltage drop of less than 3% under load.

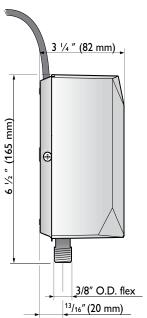

<sup>&</sup>lt;sup>4</sup> Mechanical units suitable for supply with cold water only. Thermostatic units can accept inlet water of 122°F.

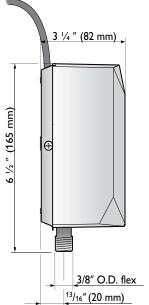

<sup>&</sup>lt;sup>5</sup> Do not connect to a salt-regenerated water softener or a water supply of salt water.

#### **Dimensions**

- > Suitable for warm water hand washing at a single sink
- › Mini™ models suitable for inlet cold water supply only.
- > Mini™-E models suitable for supply inlet max. 122 °F.

Conforms to UL Std. 499

Mini™:

Certified to CAN/CSA Std.

C22.2 No. 60335-1, E60335-2-35

Mini™-E:

Certified to CAN/CSA Std. C22.2 No. 64

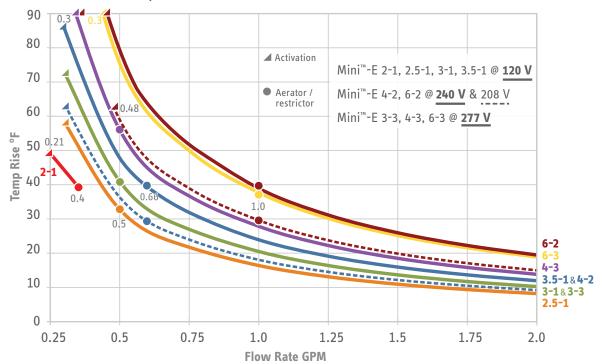

Tested and certified by WQA against NSF/ANSI/CAN 372 for lead free compliance.

**ISO 9001** CERTIFIED

# Mini<sup>™</sup> Temperature Rise vs. Flow Rate
